Stephen Tomkins

Project Director | HS2 | Area North
Llangynidr, Wales, United Kingdom

Summary

A senior leader with significant experience in leading civil engineering businesses. Has a track record of successfully delivering the development and construction of highways, rail, regeneration, nuclear, infrastructure, EPCC and marine projects. Engages and motivates teams to deliver on time and to budget whilst maintaining the highest standards in quality, health and safety and wellbeing. Strives to create a culture of trust and inclusion that allows individuals to outperform in their roles and deliver business targets.

Experience

Balfour Beatty VINCI

Project Director

February 2026 - Present (3 months)

Birmingham

Leading the Balfour Beatty Vinci Joint Venture delivering HS2 Area North

Balfour Beatty plc

3 years

Project Director

December 2024 - Present (1 year 5 months)

Bridgwater, England, United Kingdom

Leading the project to deliver one of the most complex marine and tunnel engineering projects currently taking place in the world, to support the construction of the first new nuclear power station built in the UK in a generation. The project will construct three tunnels under the seabed that will supply the two reactors at Hinkley Point C with cooling water and then discharge it back into the Bristol Channel.

Construction Director

May 2023 - Present (3 years)

Sellafield

Working as part of a joint venture to construct the Box Encapsulation Plant which will receive, segregate and encapsulate hazardous nuclear waste for safe storage and disposal.

Alun Griffiths (Contractors) Ltd
